

The new face
of Hotel automation

COMPANY PROFILE

WHAT WE DO

"Our mission is making technology intuitive and elegant, to offer comfort and an experience of use of excellence."

We design **Hotel automation** solutions for:

- access control
- energy saving
- domotics

WHO WE ARE

*"We have done our
passion for hospitality and
technology our job."*

*"Consideration of people,
passion for innovation
and respect for the environment
are the values that guide us
in everything we do."*

We are pioneers
of **Hospitality automation**:

- since 1996
- design and products made in Italy
- more than 10,000 rooms installed (hotels,
student residences and B&Bs)

SOLUTIONS

"We believe technology doesn't have to be invasive but reconcile with room design, the guest's habits and environmental sustainability."

Flush mount

Traditional, but without compromise

- wall-box mount

Sensedoor

Domotics on door frame

- retrofit installation
- even standalone (no software)

Mirror

The fairytale Hotel becomes reality

- wall-mount installation
- mirror effect touchscreen display
- LAN / Wi-Fi / BLE communication

THE SOFTWARE

"We designed our software as a real control room of the entire building."

Giano is our Hotel supervisor:

- runs on both Windows and Mac
- integrated with PMS, VRV/VRF, electronic door locks and self-check-in solutions
- allows H24 guest access with App, SMS, PIN and RFID

TECHNICAL SUPPORT

"We are always by your side during the design, startup and daily use of our solutions. "

- online demos
- tailor-made solutions
- mock-up rooms
- 99% of startups by remote
- 24/7 remote support guaranteed
